

# PHOTOGRAPHERS CREATIVELY UNITED TRIBE ARCHIPELAGO

## THE TRIBE

A broken chain of emerald, wind-swept islands scattered along the edge of the North Pacific. A far-flung constellation of lands laced together by endless waves and tides. An assemblage of shores whose collective identity transcends the singular essence of each. This is our archipelago, our tribe. A growing collective of some of the world's finest Lightroom Presets and Creative Profiles made available to you. Welcome to tribe archipelago.

(Red Leaf Studios Inc) Tribe Archipelago proudly donates a portion of the profits from our Photographer Preset Packs to hand-selected nonprofits with the shared mission of encouraging youth to explore their creativity through photography education and opportunities. By investing in the growth of art programs around the globe, we can help children and young adults discover how they see the world.
