Preset Installation Instructions – Method 1 (recommended)

1. Download the presets.
2. Unzip the Folder.
3. Open Adobe Lightroom.
4. Go to Lightroom> Preferences
5. Click Show Lightroom Presets Folder...
6. Double Click Lightroom. Then Double Click Develop Presets folder.
7. Copy or Drag n' Drop the folder of your downloaded presets into the Develop Presets folder.
8. Now close and restart Lightroom. And your presets should be ready to go!

Preset Installation Instructions (Method 2)

1. Go to the Presets panel in the Develop Module.
2. Then right-click inside the Presets panel > Select New Folder > Name the folder (Ex: Lifestyle Blogger Vol. 1 - Filtercrave)
3. Then right-click inside your new folder > Select Import
4. Go to the file where you downloaded the preset file (make sure it's already unzipped).
5. Then select all the presets in that folder (CMD+A for Mac) > Click Import

Terms & Conditions

Purchased and free digital products from Filtercrave may be used on commercial or non-commercial images. However, you MAY NOT resell, share, or redistribute Filtercrave's purchased or free resources and files in any manner. Also, DO NOT use Filtercrave's presets, actions, promo/product materials, and templates to create new presets, actions, or templates for redistribution or resell. All created presets, actions, and template resources copyrights belong to Filtercrave, LLC. Outside stock imagery may be included as part of a template or product, license & primary ownership of those images remain with the original owner and are not part of the purchased Filtercrave product for customer use. (If you purchased this product via Creative Market, Etsy, Design Bundles, or The Hungry Jpeg different license terms may apply. (Please read those terms as they may override some of the terms and policies in this help file). If you purchased from www.filtercrave.co, the website's terms apply to this purchase as well. You may read them here: <https://www.filtercrave.co/terms-of-use/>

What You Can Do

- You can use purchased or free Filtercrave lightroom presets or photoshop actions for an unlimited number of times for commercial or personal images and projects.
- You can use purchased or free stock images, mockups, and templates in up to 500 End Products. The amount of impressions your End Product is allowed is generally unlimited. For TV, films, streaming video, on-demand broadcasts, and/or online videos End Products up to 10,000 impressions are allowed. If you need to use the product (s) in a larger number of End Products or impressions please contact info@filtercrave.co.
- You can distribute or sell the flattened image file in which you used Filtercrave digital products or files.
- You can use Filtercrave products in your images and projects without giving attribution. Attribution is not required but is very much appreciated especially if you received the product for free.

What You Can Not Do

- Redistribute, sublicense, sell, or rent any purchased or free Filtercrave digital products or files in any way. You may not include the originally purchased items (or source files) in any distributed end products.
- Do not redistribute layered files where a Filtercrave product was used.
- Include Filtercrave digital product files in an online database or file.
- Claim Filtercrave digital products and files as your own.
