

An invitation...

Greetings!

I had to drop a sincere note of appreciation for downloading my first preset collection called "The Lovely Collection". I use these presets day to day with client work so it is very exciting to see others share in the joys I get out of the colours, mood and style they create.

Please accept this invitation to join the exclusive facebook group [ESTELLA PRESET COMMUNITY](#) to share your finished images, ask questions and support fellow photographers!

Please feel free to follow my photography work too:

Facebook

Once again, thank you so much and I look forward to following your work!
